	Chapter 5 (BONUS): This is an Alan Partridge soundboard – complete with multiple pages of buttons that play audio, and a Text-to-speech player at the side. **Chapter 6:** This is a small app that calculates the price of gas per liter. You can edit the price of the gas and enter how many liters you plan to buy. **Chapter 6 (BONUS):** This is a little game that can be played on browser. Just guess the color by reading its Hex value. If you get it right, you get a point. Otherwise, you start from the bottom.
